Health and Safety Practices

As a preschool and daycare facility, we are required by the State of Indiana to inform you of the health and safety information listed below, and assure you that all teachers have been trained to follow the health and safety practices. This signed form will be filed in every student's personal file.

If at any time you would like to read the four-page, detailed document regarding this information, you are welcome to do so. It is posted on the bulletin board in the daycare room.

As always, please let me know if you have any questions.

In Christ,

Gwen Kanning, Director
